

	Quality Management System	
	TMT-QMS-001	Rev: 2.1

1.0 TMT QUALITY POLICY: QMS-POL-001

Total Marine Technology (TMT) is engaged in the provision of support services in the hydrocarbons industry. This policy applies to all TMT onshore and offshore personnel.

The purpose of the policy is to confirm TMT's commitment to meeting quality standards expected by customers in the delivery of products and/or services.

Our company's mission, goals and objectives are directed towards ongoing process improvement as a basis for strengthening our competitive position, improving product quality and raising service standards.

In support of this commitment to quality, our Quality Management System will comply with the requirements of ISO 9001 and where applicable The ISM Code.

TMT will:

- Develop and implement a Quality Management System to achieve best practice outcomes across the organisation;
- Ensure continuous improvement.

TMT is committed to communicating to all staff and stakeholders the organisation's strategic direction, objectives and achievements, to ensure all staff operates consistently to meet quality goals.

To implement this Policy we will focus on the needs of our business with particular reference to consistently meeting our customer's requirements and statutory obligations. Our Quality Management System will provide mechanisms for detecting system shortfalls and for stimulating process improvements.

TMT has developed procedures and disciplines to ensure that:

- All staff are provided with the necessary information, training and resources to maintain the quality of our products and services to satisfy the needs and expectations of our customers;
- Responsibilities for quality are established by communicating these responsibilities clearly to all employees;
- The policy and procedures continue to be appropriate by initiating regular reviews to check their effectiveness and ongoing relevance;
- TMT regularly reviews the needs and expectations of its customers' and initiates continuous improvement activities to meet these expectations. These are measured in service performance, reliability, relevance and timeliness.

Paul Colley
Chief Operating Officer
