5 1/2" AX Ring Grip Gasket Tool

Engineered Tooling Solutions *FAST*

The TMT 5.5" AX tool is used to install or remove an internal AX gasket from the wellhead. The tool is designed to grip AX ring gaskets in subsea environments with an ID of 5.5". Any other rings can be gripped by changing out the wedging plate (not supplied). Tool shall be deployed axially into the gasket.

TMT can configure to the customer requirements.

Features:

- Cost-effective
- Low maintenance required
- ROV handles
- Field proven
