

CATEGORY: Grinding & Brushing TMT External Cleaning Tool

Engineered Tooling Solutions *FAST*

The TMT External Cleaning Tool is designed to clean scale and growth from the wellhead external sealing surface. An outer ring is hydraulically actuated to clamp onto the wellhead and centralise the cleaning head. Then a powerful hydraulic motor and three cleaning pads conform to the surface of the well pipe to create an ultra-clean surface ready for other processes. Variable cleaning pressure can be controlled from the surface. Variable cleaning heads can be attached to clean the internal wellhead seals.

Features:

- Heavy duty polypropylene filled strip brushes
- Hydraulic motor
- Proven rugged design
- Lightweight construction
- Range of available pads

Specifications:

- | | |
|--------------------------|---------------------|
| • Dimensions | 985L x970Wx 1546Hmm |
| • Weight in Air | 123kg |
| • Weight in Seawater | 80kg |
| • Max Operating Pressure | 275bar (3990psi) |
| • Max Flow | 90L/min |
| • Speed @ 20L/min | 64rpm |
| • Speed @ 30L/min | 95rpm |
| • Depth Rating | Unlimited |
